Case No. 800-2017-039139

**Public Letter of Reprimand**

On November 16, 2017, the North Carolina Medical Board issued a letter of concern based on your failure to comply with the standard of care when you made a decision to utilize intra-ocular diathermy to manage the macular hemorrhage near the patient's optic nerve and the patient was inadvertently provided copies of another patient's records, post-operatively.

These actions constitute a violation of California Business and Professions Code sections 141(a), 2234 and 2305.

Pursuant to the authority of the California Business and Professions Code section 2233, you are hereby issued this Public Letter of Reprimand by the Medical Board of California.
